

AFYUN
PLYWOOD

**A Plywood
for everyone.**

MADE IN INDIA

Stories become histories, but champions leave a legacy! Afyun began its quest for success during the economic boom in 2001. Gathering a team of well trained craftsmen and highly qualified professionals, we set out on an adventure to conquer the plywood industry by delivering the finest products to the world. As someone with a winning streak, we believe that our success is a reward for creating a brand that doesn't compromise on quality. We have built a trustworthy relationship with our customers from all classes by ensuring accessibility of our products to everyone. We not only provide the premium standard plywoods but also offer a wide range of decorative veneers to choose from under one roof. The durability of our products are sure to relieve you of your stress as our products are not merely a piece of furniture in the making but a valuable addition to your home.

One of the main virtues of Afyun is its ability to provide outstanding products that can be claimed as No:1 in the market in terms of quality and aesthetics. Each and every product undergoes a thorough examination from the raw material stage till its final product. We ensure standardisation at every step amongst both the Indian and the global standards to get our products certified by the International Organisation of Standardization.

MADE IN INDIA

We know that producing the best quality goods comes with healthy and satisfied employees.

That is why we prioritise the well being of our employees just as much as the quality of our products. Our well maintained machinery and a safe working environment plays a major role in making the finest plywoods in the industry.

Our vision is to rise above the flaws and bring new possibilities in the plywood industry.

We continue to achieve this through proper planning and execution at every instance. The brand Afyun stands as the symbol of quality, drawing from an outcome of strength and durability. Our journey hasn't ended yet. We gear up to cross greater milestones and climb many stairs of success ahead.

From the Chairman's Desk

Afzal Yunus

Success isn't an easy thing to come by.

“Quality, durability and customer satisfaction” being our core moto, we have always ensured to deliver the best products and solutions to our clients. I convey my sincere greetings of gratitude to all our stakeholders without whom we wouldn't be here today. We value your feedback that helps us straighten out any flaws and ultimately reach the point of absolute perfection!

Best Wishes, Chairman

A handwritten signature in black ink that reads "Afzal Yunus". The signature is written in a cursive style with a horizontal line underlining the name.
