

GULF CIRCLE

TRADING COMPANY-KSA

Fire Resistant & Waterproof Plywood

AFYUN Clubfire

General Purpose Plywood

Afyun Clubfire is a durable, high-quality plywood designed for interior fit-outs, furniture, and light commercial applications. It offers excellent surface finish, borer and termite resistance through GLP treatment, and reliable performance for residential and commercial projects where formal fire compliance is not a regulatory requirement.

Key Features

- Durable finish with high-quality surface
- Interior fit-outs and furniture applications
- Borer and termite resistant (GLP treated)
- Residential and light commercial use
- Structured balance and high-impact resistance
- All weather proof
